What does Mwabu do?

We offer a full ecosystem of educational products and services into African markets.

Core Services
We focus on curriculum development, assessments, data and analysis in order to create the optimum Mwabu learner.
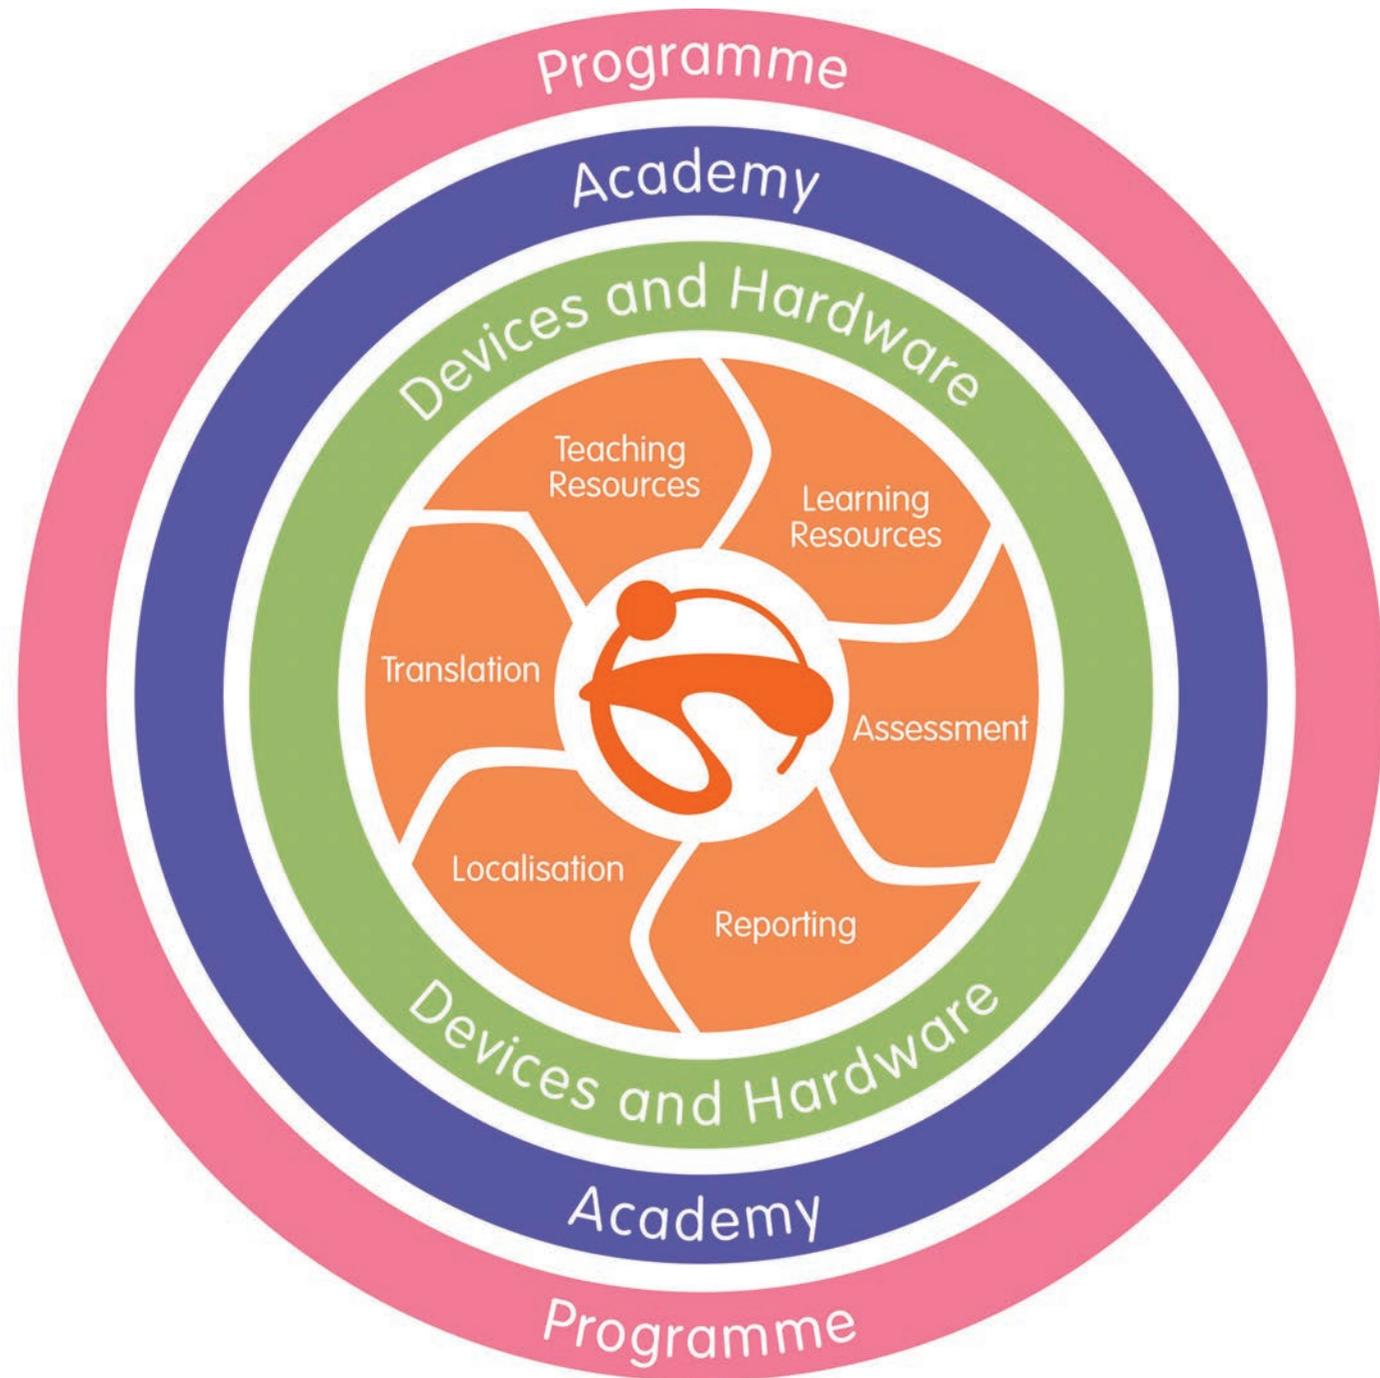

Devices and Hardware
The Mwabu tablet is the current method by which all of our services are accessed but soon, with a brand new approach to technology, content will be available across a broad range of platforms and devices.

Academy
The Mwabu Academy offers an intelligent interconnected network of teachers, learners and parents to share good practice across borders. With a complete set of standard and bespoke change management courses, Mwabu will offer continued training in the Mwabu pedagogy for teachers, advisors and trainers.

Programme
The Programme Office delivers effective and efficient projects for internal and external customers of Mwabu ensuring a seamless end to end implementation and change management approach.

Core Services

This is where we excel. By focusing on curriculum, development, assessments, data and analysis in order to create the optimum Mwabu learner.

Teaching resources

A range of practical resources that help teachers deliver Mwabu lessons every day of every term.

- **5000 Lesson Plans:** These cover every lesson throughout lower and upper primary school.
- **Learning Resources:** Interactive lessons for children to do with their teacher or in groups.
- **Reading Schemes:** A set of original story books based on staged reading levels.
- **Teacher Training:** Handy teaching tips.
- **Wikipedia and Dictionary Access:** There is a potted Wikipedia and a dictionary on each tablet.
- **Exam app:** A series of exam-style timed questions to help teachers prepare learners for final primary exams.
- **Real world resources:** Useful real world tools like maps, comic book learning about water and sanitation and materials on wildlife conservation.

Assessment

The development of valid and reliable progress-tracking and assessment tools.

- **Question Database:** A big and ever-growing collection of learning assessment questions based on topic lessons.
- **Continuous Professional Development assessments:** To help teachers and heads keep on growing and learning.
- **Formative assessment:** Lesson plans and interactive resources all contain questions and quizzes for learners, teachers and parents to get instant feedback.
- **Pre and Post Testing:** What learners know before starting a series of lessons and what they know after.

Learning Resources

An array of resources that help parents and students take learning home from school.

- **Reading Schemes:** A set of original story books based on staged reading levels.
- **Library of books:** A collection of original stories to read aloud with parents and older children, or to extend the more advanced reader.
- **Homework:** Fun activities to help children continue and reinforce their learning at home.
- **Games:** coming soon
- **Tests and Quizzes:** Fun interactive tests and quizzes are built into all learning resources.
- **Exam app:** A series of exam-style timed questions to help learners prepare for final primary exams.
- **Real world resources:** Useful real world tools like writing, spreadsheets, presentations, maps, comic book learning about water and sanitation and materials on wildlife conservation.

Translation

Written and voiced content for multi-lingual young learners which follows appropriate standards and is easy to understand.

- **Translation:** bringing understanding to learners through their own languages.
- **Proofreading and checking:** ensuring that learning materials are easy to read and follow established standards. Or working with local experts to set standards, where minority languages are used in education for the first time.
- **Voicing:** bringing content to life with clear and engaging narration, in English and local languages.
- **Literacy tools:** helping children learn to read and write in their own languages.

Reporting

The ability to track progress and intervene to support and raise teacher and pupil performance.

- **Data:** As well as all the data that teachers collect from observing and assessing pupils, the platform allows us to collect all sorts of information to support and drive improvement.
- **Information and Knowledge Sharing:** Linking learners, teachers, parents and policy makers to each other and to shared information and knowledge.
- **Reporting for Learners:** Learners get real-time feedback from quizzes and tests.
- **Reporting for Teachers:** To see how their learners are progressing: who needs support and who needs more challenge; which lessons are working and which need tweaking.
- **Reporting for Parents:** To know how their children are progressing and what they can do to help and encourage.
- **Reporting for Head Teachers:** Feedback for heads and principals on how pupils, classes, grades and teachers are progressing to help them get involved where needed.
- **Reporting for policymakers:** The real-time, school-based information and data that education policymakers at all levels need to drive achievement and make evidence-based decisions.

Localisation

Lesson plans and interactive resources are tailored to be relevant by country and explicitly aligned to the national curriculum.

- **Localising e-learning content:** Materials that recognise that every country is different.
- **Specifying Curriculum Requirements:** Materials that meet the national curriculum with lesson plans covering specific statements of attainment.

Hardware

The current method by which all of our services are accessed but soon, content will be available across a broad range of platforms and devices.

- **Teacher Tablet:** Designed to help teachers provide detailed, interactive lesson plans covering every school day of Primary School.
- **Pupil Tablet:** The Mwabu tablet allows students to advance their learning in a fun and interactive way.
- **Home tablet:** The education isn't just limited to school times, it extends into home use as well.
- **Headphones (Teacher):** Headphones allow teachers to experience the auditory aspects of our content.
- **Headphones (Pupil):** Headphones allow pupils to listen to their lessons in their chosen language.
- **Keyboard:** The keyboard allows for easier typing.
- **Projectors:** Lessons can be projected in classrooms to teach learners.
- **Solar Chargers:** Access to power in our areas of operation is often limited this is why we facilitate solar charging of our devices.
- **Charging Trolley:** Alternatively, charging trolleys are also available for users to charge their devices.
- **USB Chargers:** Aligned with modern-day devices we also offer USB chargers for our devices
- **Content Access Point:** A central point in which users can access content for their lessons.

Academy

Continued training in the Mwabu pedagogy for teachers, advisors and trainers. An intelligent interconnected network of teachers, learners and parents.

- **Phase 1 three-day teacher training course:** introduces the Mwabu pedagogy, alongside training in the practical use of the lesson plans, resources and technology in the classroom.
- **One day Mwabu School Coordinator training course:** continued training in the Mwabu pedagogy, establishing the Mwabu systems within the school and strategies for supporting colleagues in the classroom.
- **One day Head Teacher training:** educates head teachers in the Mwabu pedagogy and familiarises them with the technology, enabling them to lead change management within their schools to ensure successful implementation of the Mwabu Approach.
- **Phase 2 two-day teacher training course:** consolidate Phase 1 Learning and share best practice, use of formative assessment, and adapting their teaching to include differentiation.
- **Mwabu Advisor Training:** depending on project and advisor role, 1-3 day courses to ensure continued use of Mwabu Approach.
- **Train the Trainer:** a set process through which Mwabu will plan training to suit the needs of each project.
- **Advanced Skills Training available**

Programme

Delivering effective and efficient projects ensuring a seamless end to end implementation and change management approach.

- **Methodology:** PRINCE II qualified and accredited team consistently delivering on time and within budget, projects that meet or exceed stakeholders' expectations.
- **Effective Online and Offline Tools:** We use the latest and most effective tools for managing, monitoring, reporting, flowcharting and resource allocation.
- **Monitoring & Reporting:** Governance, work plans and sign off, raid logs, lessons learned loops.
- **Process Design:** How we determine the workflow, equipment needs, and implementation requirements for a particular programme and project.
- **QA:** Our way of preventing mistakes or defects in our products and services for our customers, providing confidence that quality requirements will be fulfilled.
- **Testing & Release Management:** Release management is the process of managing, planning, scheduling and controlling a software build through different stages and environments; including testing and deploying software releases.
- **Communication:** effective Internal and external communication, meetings and status reports to communicate ideas, get decisions made and resolve problems. A true understanding of who and when to discuss projects with, in the context of whatever is most important to the audience.

Bespoke Services

Designing bespoke e-learning content across a very wide range of topics, with public or private sector organisations.

- **Instructional design development:** From initial client consultation to the development of the e-learning course
- **Digitising content and curricula:** Taking existing curriculum content and making it come alive in a digital format
- **Produce e-learning content:** The manufacturing process – making your content into e-learning content
- **Course development:** Creating e-learning courses aligned with your specific curriculum or programme
- **Learning management system integration:** Implementing effective infrastructure and platforms to support the e-learning process
- **Content management:** Managing your content through effective platforms
- **Programme management and project delivery:** World-class delivery services ensuring you the best experience when working with Mwabu
- **QA and testing:** Complete testing and quality assurance pre, during and post delivery
- **Manage and support pilot programmes and implementation:** Working with you to pilot new products and services to get the best from your courses
- **Bespoke change management and training provision via Mwabu academy:** Market leading engagement with teachers, tutors and service providers designed specifically for you.
